Notes and Comments

We thought it would be a good idea to compile a bibliography on Philosophy for Children. That bibliography appears at the end of *Analytic Teaching*. By the time you read it, it will be out-of-date. It does, however, represent a close-to-exhaustive list of papers and books written about Philosophy for Children. The problem, now, is to fill in the omissions and to add new entries.

Several workshops in Philosophy for Children are being offered this summer. Texas Wesleyan College offers one in June. The Institute for the Advancement of Philosophy for Children offers a number of workshops in July and August. Two of our contributors, Professor Tony W. Johnson and Professor Richard Morehouse, are offering workshops on their campuses in July. Professor Johnson teaches at The University of Texas at San Antonio. Professor Morehouse teaches at Viterbo College in Lacrosse, Wisconsin.
